

# Pet Friendly Policy

*Going away for the weekend with the most loyal friend of all; A Quinta da Auga is a place where we receive and feel a predilection for four-legged companions*

A QUINTA DA AUGA

# Our policy

## We are a Dog Friendly hotel

At A Quinta da Auga we accept dogs as pets, as long as their breed is medium or small in size, excluding potentially dangerous dogs (PDP). The client can contact the hotel to assess the possibilities of accommodation (always subject to availability) in case he wants to stay with another pet that is not a dog or with a dog larger than indicated.

A QUINTA DA AUGA

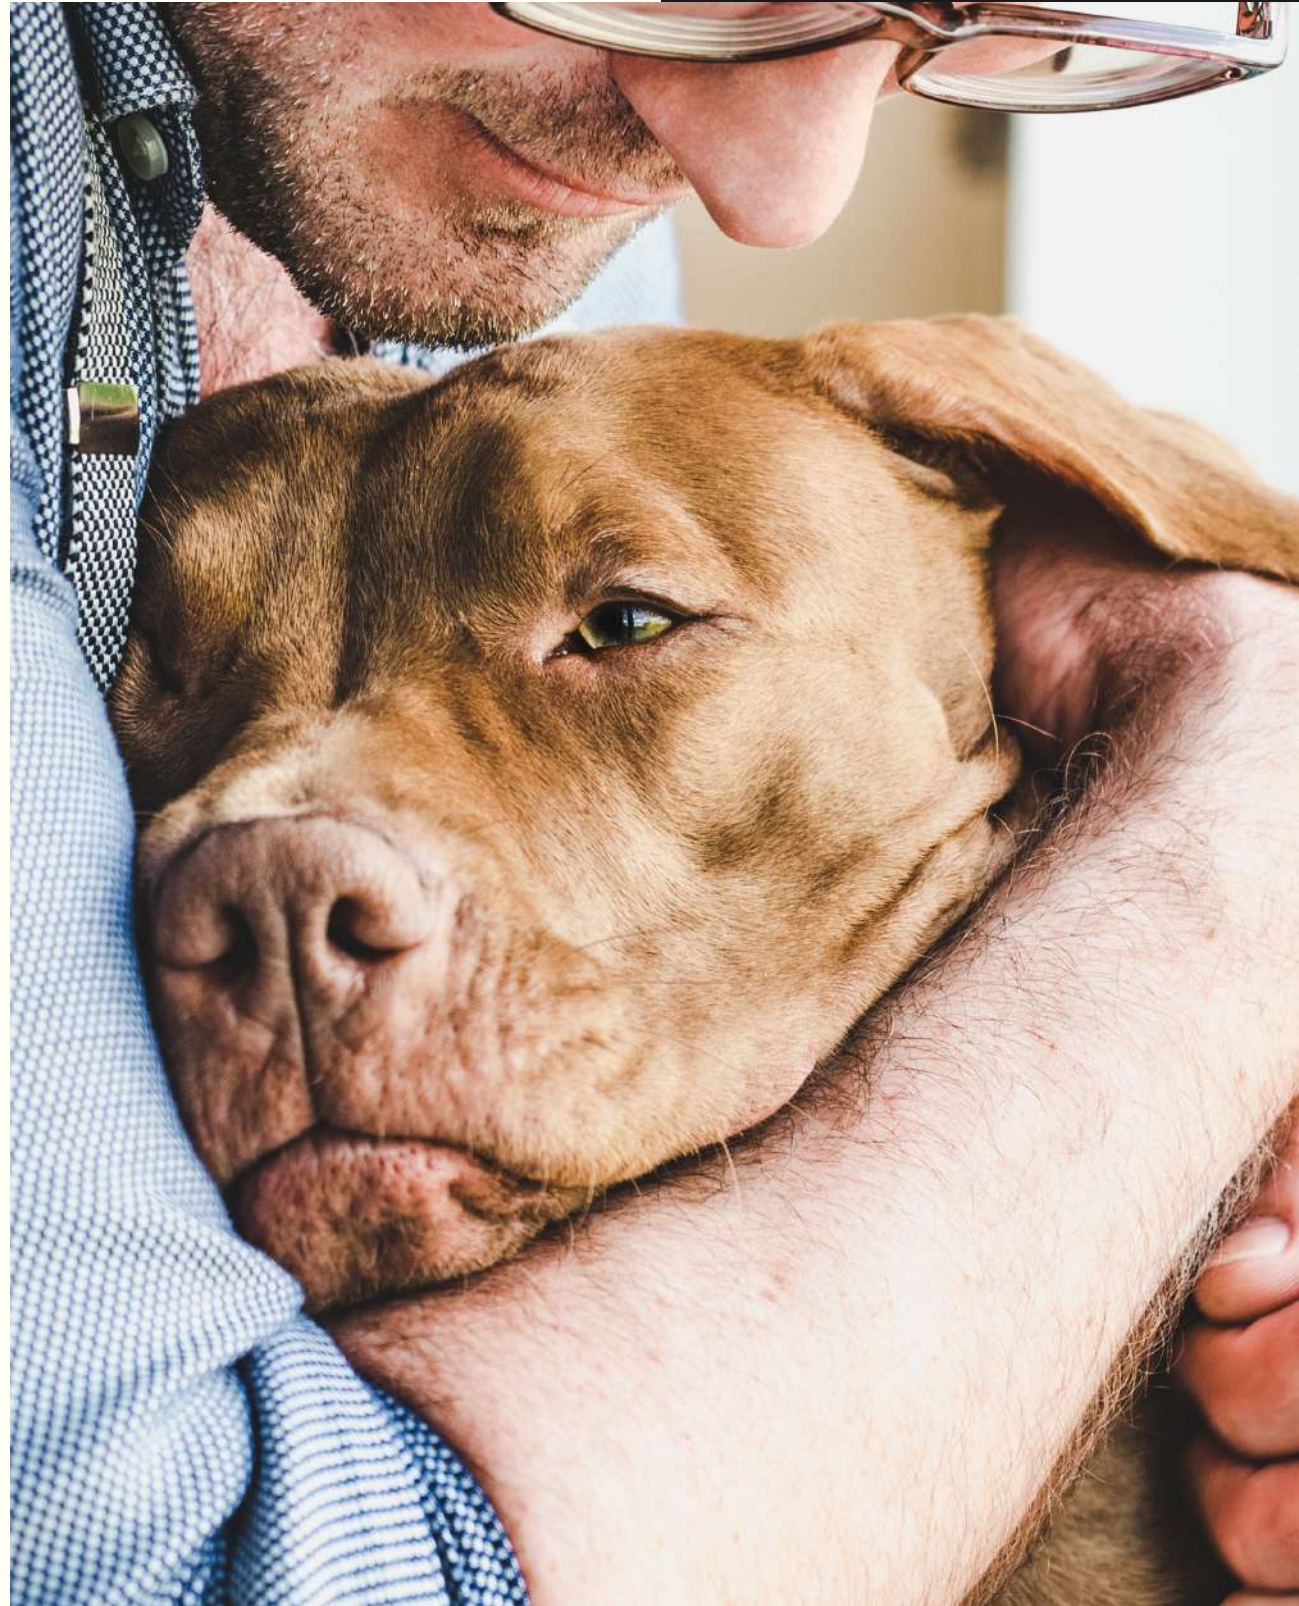

In our hotel we offer among our services beds for pets, a feeder, a drinker and the special cleaning that dog entails. All the comforts at their disposal and that of its owners. The pet supplement, which includes all of the above, is €45.00 per night.

Don't forget to call and check hotel availability before you arrive to also make sure the room has everything you want and need.

Our policy

# Rules

## Rules for an optimal coexistence with the rest of our guests

There is the possibility of leaving the dogs alone in the room, as long as their owner remains within the hotel premises and notifying reception in advance.

Our room cleaning service staff will not enter the room if the pet is inside.

The stay in the common areas with the pet is not allowed except on the terrace. For this reason, a room on the lower floors will preferably be assigned, from where you can directly access the gardens.

## Rules

They will be able to access the outdoor areas of the hotel, except those areas for rest, such as the pool. The entrance to the restaurant, cafeteria and social room is prohibited.

It is essential that the pet remains calm. Otherwise, and if the noise is constant, the hotel may be forced to cancel the reservation. Proper pet hygiene will also be essential.

In the event of any damage, this will be included in the invoice in a specific section.

- *These rules are not applicable to guide dogs accompanying blind people, which will always be accepted regardless of their characteristics without any charge. The same with emotional support dogs, duly justified.*

# Experiences in Santiago de Compostela

The city is home to all kinds of attractions that you can access accompanied by your pet. In addition to hiking trails and other activities to do in the company of your dog, Santiago has numerous parks with designated areas: Galeras, Eugenio Granell, Belvís, Pontepereda, Carlomagno... An updated list is published on this [website](#).

Also in the Alameda's park, next to the old city, it is possible for dogs to go without a leash.
